

Original Note from Parent:

2/28/2020

[Redacted]

had trouble
with her
math homework
last night and
the night before.
She needs extra
help before
the test.

Could she
please get help
in class or
even after
school?

Thank You!

Mrs. [redacted]

Hello, my name is Emily Staskin. I am the student teacher for [redacted] algebra class. I received your note today about her homework. The Quest on factoring is scheduled for this coming Monday. I have made a note to bring [redacted] in during enrichment on Monday to work with her on these concepts.

[redacted] received a review today that is very similar to the Quest she will take on Monday. The IXLs should also be great practice this weekend. I am always at school early so if [redacted] wants to come in to receive help before school, I will be here.

Thank you so much for reaching out. I will do everything I can to make sure she feels prepared for the Quest on Monday. If you have any questions or concerns please let me know.

Best,
Emily Staskin

Hi Emily,

Thank you for your email. I apologize for the slow response as we've been fighting Sickness over here with my sons. It's been a brutal winter with illness.

She's been working on things this weekend and says she has a bit better understanding, but pulling her out for enrichment tomorrow would be great.

Thanks,
[redacted]

I hope everyone at home is feeling better! I will be expecting [redacted] tomorrow!

Best,
Emily Staskin
